

## Rear suspension

### 00.44

**Rear suspension** independent.

Longitudinal and transverse rods, built in telescopic dampers with hydraulic shock absorbers, coil springs and a stabilizer bar.

#### Coil springs

Part number		82427963
Diameter of wire	mm	12,2
No. of turns		4,96
Direction of coil		clockwise
Height of spring released	mm	374,3
Height of spring under a load of: 266 ÷ 278 daN	mm	227
The springs are subdivided into two categories, identifiable by a mark:		
yellow (1) for those under a load of: 266 ÷ 278 daN	having a height of mm	> 227
green (1) for those under a load of: 266 ÷ 278 daN	having a height of mm	≤ 227

(1) Springs of the same category must be fitted.

#### Shock absorbers

Type: telescopic, gase (low pressure), double acting		BOGE
Part number		88888286
Colour		black
Travel	mm	203,5
Maximum extension	mm	775 ± 3
